

Schedule

All lessons are conducted in English in the online learning environment.

10 modules open sequentially on Mondays and Thursdays at 9:00. This equals two modules per week.

Each module includes recorded video lessons, tests, and practical work under the guidance of the teacher and mentor.

Submission of summaries for practical assignments and feedback from the teacher takes place in the Google Classroom environment by a specific deadline.

Every week, live group sessions and practical classes are held in Zoom.

Zoom meetings take place at specified times according to the schedule, each lasting 3 academic hours, and attendance is mandatory.

Upon successful completion of the each module within the specified timeframe and achieving a test score of at least 70%, there is an opportunity to receive bonus video lesson at the PRO level.
